

Bob Martin

Bob Martin joined the NHS Board on 1 November 2013, bringing experience as a senior engineer and business leader. He has managed the design and construction of a number of large manufacturing facilities on a global basis through his work with ICI. Having worked with ICI for more than 24 years, Bob then joined ABB and established and managed an engineering services company based in Scotland. Robert's division specialised in providing legislative compliance audits and advice regarding compliance, process and engineering design and construction for the pharmaceutical, fine chemical and drinks manufacturing sectors. Bob brings to the board skills and experience including governance and scrutiny, contract management, financial management, communication and networking
