	<p>T Eltringham thanked L Duncan and colleagues who have been involved in conversations within the Budget Working Group over the last 6 months and have assisted in developing these approvals.</p> <p>T Eltringham explained that the biggest risk area remains the additional beds at the Biggart Hospital. T Eltringham stated, in essence they have been planning for months to look at the closure of excess beds and have been engaging with acute side Director on the need for this. The requirement to close the additional beds has caused anxiety for colleagues within the acute service and has been amplified recently due to a spike of Delayed Transfers of Care. 34 new referrals were received in a single day in February, which is not something that they have experienced previously. As this develops it creates a rise in the number of people delayed, albeit for shorter periods of time.</p> <p>T Eltringham explained that they met with acute colleagues to discuss how they work through this issue with the finances available and the risk around reducing bed numbers.</p> <p>Agreement was made with the Director of Acute and Nursing to engage in further planning work and whole system intervention work. A workshop will also be held with colleagues in acute on 27th March to look at data and develop a plan to mitigate and minimise risks around closure of beds.</p> <p>T Eltringham requested agreement from the Board for an extension of the underpinning of the overspend at Biggart Hospital for one month initially.</p> <p>It was suggested that B McClean and colleagues would bring proposals back to the next IJB in May detailing work they have in mind with a view to closing the beds.</p> <p>G Hanna expressed concern on behalf of Option 3 Care at Home Providers regarding the detail of the Adult Social Care Uplift, however, appreciates the challenges across the board. G Hanna noted the concern around how this will impact their sustainability and appreciates that the IJB is recognising this. G Hanna noted that providers would welcome an early conversation with Senior Managers regarding whole systems approach to managing challenges around DTOC also.</p> <p>T Eltringham acknowledged G Hanna's comments and noted that officers would agree with the level of concern, advising that there</p>

	<p>has been a significant amount of engagement from Health and Social Care Scotland, COSLA and Scottish Government in relation to the general position regarding funding of Social Care.</p> <p>S Tyeson notified that she has circulated communications to Senior Management from the Commissioning Team affording an opportunity for providers to engage with Director directly. S Tyeson informed that there has been low uptake on this offer so far.</p> <p>M Oliver informed that the Third Sector Management Forum are keen to understand what the IJB propose to do regarding the possibility of a number of commissioned services being unable to continue to provide a service due to the National Insurance issues.</p> <p>T Eltringham explained that the IJB are only able to allocate resources they have been given, expressing that those working within the sector recognise that National Insurance is an additional burden, within costs already significantly under pressure.</p> <p>The Board noted the content of the paper, approving the recommendations and acknowledging that the timescales regarding the ambition for Biggart Hospital would have to be modified.</p> <p>Further discussions would continue to take place routinely within future Budget Working Group meetings.</p>	
8.	<p>Proposed Social Care Charges 2025-26 and SAHSCP Charging Policy</p> <p>L Duncan advised that the purpose of this report is to present proposed increase to non-residential social care charges and implementation of one new charge for agreement prior to approval at South Ayrshire Council Cabinet on the 18th of March 2025. Review of new Social Care Charging Policy for agreement prior to approval by South Ayrshire Cabinet on the 30th of April 2025.</p> <p>L Duncan provided some background information and highlighted the proposed charging increases for social care.</p> <p>L Duncan informed that the proposals have been done through a benchmarking exercise on non-residential social care charges and if agreed they would be presented to South Ayrshire Council's Cabinet for approval on 18th March 2025.</p>	

	<p>The Board are also asked to agree the proposed implementation of financial administration charge for Corporate Appointees to be presented to South Ayrshire Council's Cabinet for approval on 18th March 2025. Also to agree the new Social Care Charging Policy to be presented to South Ayrshire Council's Cabinet for approval on the 30th of April 2025, subject to inclusion of approved non-residential charging rates and updated national rates and allowances.</p> <p>L Semple explained that these proposals have been discussed widely both in Management Team and Budget Working Group meetings. L Semple expressed that given the cost-of-living crisis, they did not take any conversation around increasing these charges lightly. L Semple assured that considerable benchmarking activity was undertaken to ensure they established what other authorities are currently doing. L Semple advised that due to the current financial crisis they have found themselves in, there was no other option than to increase some of those services but have made every effort to keep these to a minimum.</p> <p>Cllr Hunter commended the significant amount of work that has been undertaken to establish these proposals and thanked those involved in this.</p> <p>The Board noted the content of the report and agreed the recommendations.</p> <p>An update will be provided at the next meeting of the IJB regarding the decision following presentation at South Ayrshire Council Cabinet Meeting.</p>	
9.	<p>Budget Monitoring Period 10 – 31st January 2025</p> <p>L Duncan informed that the purpose of this report is to advise the IJB of the projected financial outturn for the financial year as at 31st January 2025. Request for approval on use of reserves, and requests for funding from the Improvement and Innovation reserve fund, and budget virements for approval are also included.</p> <p>L Duncan advised that the projected outturn as at the end of January 2025 is an overall overspend of £0.961m a favourable movement of £0.328m. The projected outturn is broken down as</p>	

	<p>follows:</p> <ul style="list-style-type: none"> • Social care services delivered by South Ayrshire Council are projected to be overspent by £0.279m • Managed services delivered by NHS Ayrshire and Arran are projected to be overspent by £0.520m <p>L Duncan noted that Lead Partnership arrangements are projecting an overspend of £0.162m, this includes share of East Ayrshire's underspend £0.200m and North Ayrshire's overspend £2.059m combined with their contribution of £0.375m to South Ayrshire's lead partnership services overspend.</p> <p>L Duncan highlighted that the main areas of overspend or under recovery remain the same and are reflected within the budget.</p> <p>C Hunter queried in relation to the projected overspend of £0.538m, due to increase in care at home staff using council fleet and hire cars and the additional cost incurred in repairs and maintenance of hire cars and overspend in staff mileage costs.</p> <p>B McClean explained that due to the cost-of-living crisis they had a number of carers leaving the service as they could not afford to use their own car. Therefore, due to recruitment of around 140 additional carers, consciously in attempt to stabilise staff from leaving and to attract more carers, more people were offered access to use of council fleet vehicles. B McClean explained that a review of use of current vehicles is being undertaken and analysis of costs to assess ongoing financial impact.</p> <p>The Board noted the content of the report.</p>

	<ul style="list-style-type: none"> Engagement feedback with people who use our services, unpaid carers, staff, our wider community and Strategic Planning Group members; and Data and performance reporting <p>If and when approved, they would be looking to develop a public-facing, accessible, version of the Strategic Plan which will be produced together with a “Plan on a Page” and an easy read version. A video will also be produced to make the plan as accessible as possible to a range of audiences; and then the plan will be publicly launched by the HSCP.</p> <p>S Tyeson noted that the refresh recognises challenges but opportunities available too and sets out the requirements as a Lead Partnership.</p> <p>S Tyeson advised that included within the circulated papers, is the engagement report which sets out how they arrived at the plan and consultation work that was undertaken.</p> <p>A full Equality Impact Assessment has also been undertaken on the refresh of the Strategic Plan.</p> <p>Cllr Hunter stated that the Locality Planning initiatives have improved dramatically over the past few years which has created a real positive attitude towards it within our local communities.</p> <p>B McClean commended the plan and highlighted that they are beginning to get attention for the quality of strategies being developed nationally and internationally, especially around their commitment to prevention and early intervention.</p> <p>L Semple praised the integrated impact assessment, noting that she had not seen one comparable elsewhere.</p> <p>The Board noted the content and approved the Strategic Plan update for 2025 – 2028.</p>

Too Many Professionals

A circle of faces, all staring in,
Each with a question, each with a spin,
They talk in words that twist and wind,
All trying to fix what they think they'll find.

The social worker with her careful notes,
The therapist digging where no one floats,
The teacher who's seen it all before,
The doctor with meds that might restore.

They speak of plans, of steps to take,
Of all the things that might break the ache,
But in their eyes, I see the glaze,
Of well-meaning words that fill the days.

Too many voices, too many hands,
Each with their maps, their coloured plans,
But no one asks, "What do you feel?"
As they talk of charts, and what they heal.

I'm more than numbers, more than tests,
More than a file on someone's desk,
Yet here I sit, a piece to solve,
In a game of which I'm not involved.

They say it's care, they say it's right,
But all I feel is the weight, the might,
Of every word that falls like stone,
As I sit here, quietly, alone.

Where's the space for my own voice?
The chance to speak, to make a choice?
In this crowd of minds, I lose my way,
A sea of help that seems to sway.

So many hands to guide my path,
But what I need is a quiet bath,

A moment to breathe, to just be still,
To find my own voice, my own will.

Too many minds, too much advice,
All with good hearts, but at a price,
For in their care, I lose my say,
As they guide me, lead me, far away.
